# ESI Call Accounting Pro™
for ESI eSIP Evolution Series™ Systems

Take the headache out of managing your company's call records with the **ESI Call Accounting Pro™** application. With this application you will know that you always have the right information at the right time with full visibility of call activity on your ESI phone system.

ESI Call Accounting Pro's intuitive design helps keep a handle on your communications costs, while reducing the time and effort required to retrieve the information.

Simplify how you do business
Your business' time is precious, so retrieving and understanding call reports should be painless and easy to do. ESI Call Accounting Pro eliminates the guess-work when reporting inbound and outbound calls from your organization.

Extensive reporting options
A powerful reporting engine and a host of reporting types that will help you keep accurate call data. Print your report or save it in a preferred format, such as PDF, Excel or HTML. Repeatedly running the same reports? Schedule them to be automatically generated and email right to your inbox!

Key Features & Benefits include:

- Track calls for legal and HR purposes
- Reduce phone abuse and misuse
- Instantly access emergency or suspicious calls
